

Academic Program Responsibilities

This document lists academic program responsibilities by district and campus. It includes the Academic Vice President, Provosts, Deans, Associate Deans, Department Chairs, Directors, Managers, and Coordinators in the academic area. It is arranged by reporting structure within each location. Positions are indented and listed alphabetically by title under the position to which they report. Underlined titles indicate that positions that are indented and listed below it, report to that position. This document does not list the entire academic community.

An index has also been included in a separate document. It is displayed in alphabetic order by Program/Department/Position. It can be downloaded and sorted in the order that best fits the needs of the user.

If you have corrections or updates to this document, please contact Carol Sperr in the VPAA office at sperrc@palmbeachstate.edu.
