Institute Lecture Series

Scripps Florida hosts an Institute Lecture Series on a weekly basis. Palm Beach State College Biotechnology Students are welcome to attend any and or all lectures. This is a unique opportunity to gain exposure to the latest advances in biomedical research. Scroll down for all events this term.

RSVP 24 hours in advance:

Pat Castro 207-5055 or biotechnology@palmbeachstate.edu

Date: February 16, 2010

Speaker: **Dr. Donald Hunt** University Professor of Chemistry and Pathology

Subject: Identifying Peptides that Trigger Immune System to Kill Diseased Cells

Location: Building B, Auditorium

Time: 11:00 AM

Date: February 19, 2010

Speaker: **Dr. William Jacobs** Investigator and Professor Howard Hughes Medical Institute Albert Einstein College of Medicine Price Translational Research Center

Subject: Development of Novel Chemotherapies, Vaccines, and Diagnostic Tests to Treat Tuberculosis

Location: Building B, Auditorium

Time: 11:00 AM

Date: February 26, 2010

Speaker: **Dr. Alex Rich** Investigator and Professor Howard Hughes Medical Institute Albert Einstein College of Medicine Price Translational Research Center

Title: Proteins that Bind to Z-DNA and their Role in Immunity & Infection

Location: Building B, Auditorium

Time: 11:00 AM

Institute Lecture Series

Date: March 5, 2010

Speaker: **Dr. Tom Maniatis** Jeremy R. Knowles Professor of Molecular and Cellular Biology Harvard University

Subject: A Founder of Modern Molecular Cloning

Location: Building B, Auditorium

Time: 11:00 AM

Date: March 12, 2010

Speaker: **Dr. Mary Jeanne Kreek** Senior Attending Physician Patrick E. and Beatrice M. Haggerty Professor Laboratory of Biology of Addictive Diseases Rockefeller University

Subject: The Biological Basis of Addictive Diseases

Location: Building B, Auditorium

Time: 11:00 AM

Date: March 19, 2010

Speaker: **Dr. Eric Ravussin** Clinical Nutrition Research Unit, Director Pennington Biomedical Research Center Louisiana State University

Title: The Genetic and Molecular Basis of Obesity

Location: Building B, Auditorium

Time: 11:00 AM

Date: April 2, 2010

Speaker: **Dr. Katia Georgopoulos** Professor Cutaneous Biology Research Center Massachusetts General Hospital Harvard Medical School

Subject: Cell Fate Decisions and Chromatin Regulation

Location: Building B, Auditorium

Time: 11:00 AM

Institute Lecture Series

Date: April 9, 2010

Speaker: **Dr. Iannis Aifantis** Associate Professor Howard Hughes Medical Institute
Department of Pathology, NYU School of Medicine

Subject: Molecular Mechanisms in Stem Cell Self-Renewal, Differentiation and
Transformation

Location: Building B, Auditorium

Time: 11:00 AM

Date: May 28, 2010

Speaker: **Dr. Michael Glickman** Associate Member - Memorial Sloan-Kettering
Cancer Center Dept of Medicine/Immunology Program

Subject: Pathogenesis of Infection with *Mycobacterium Tuberculosis*

Location: Building B, Auditorium

Time: 11:00 AM
