INTRODUCTION

The Accountability Report was enacted by the Florida Legislature in 1993 as the State of Florida moved toward measuring performance and outcomes in instructional programs. The purpose of the Accountability Report is to assess the improvement and quality of the instructional and administrative efficiency of the Florida College System. This report is a key element in Palm Beach State College's institutional effectiveness assessment process.

The following measures were developed by the legislature to assess accountability.

Description of Measures

- 1. Measure 1 Part 1: Prior Year High School Graduates Enrolled the Following Year Enrollment Report** - This report shows the number and percent of high school graduates the College enrolls from the previous year in its service area.
- 2. Measure 1 Part 2: Enrollment, Retention, and Success Report for Associate in Arts (A.A.), Associate in Science (A.S.), and Postsecondary Vocational Certificate (PSVC) Students** - This report presents the retention and success rates of first-time-in-college A.A. and A.S. degree seeking students and PSVC seeking students.
- 3. Measure 2: Associate in Arts Degree Transfer Performance Report** - This report indicates the performance of A.A. students after they have transferred to a Florida State University.
- 4. Measure 3 Part 1: State Licensure Passing Rate Report** - This report shows the number and percentage of students passed for each appropriate vocational program licensure exam.
- 5. Measure 3 Part 2: Vocational Placement Rates of Associate in Science and Certificate Program Completers and Leavers** - This report displays the number and percentage of students who completed and were placed into an occupation related to their instruction, and also the number and percentage of students who left and were placed into an occupation related to their instruction.
- 6. Measure 4 Part 1: College Preparatory Success Rate Report** - This report presents the number and percent of first-time- in-college students who failed some portions of their entrance exam, how many of those enrolled in the college preparatory classes, and the number and percent of those who passed the highest level college preparatory courses.

- 7. Measure 4 Part 2: College Preparatory Enrollment, Retention and Success Report for Associate in Arts, Associate in Science, and Postsecondary Vocational Certificate Students** - This report shows retention and success rates of first-time- in-college A.A. and A.S. degree seeking students and PSVC seeking students, who have completed all college preparatory requirements.

- 8. Measure 5: CLAS Performance Report** - This reports shows the passing number and percent of students who attempted the CLAS or had a CLAS alternative for each CLAS subtest and for all subtests combined.

Definitions

Prior Year High School Graduates Enrolled the Following Year - the number and percent of previous year high school graduates that the College enrolls from in its service district's high schools.

Associate in Arts Degree Transfer Performance - the performance of A.A. students after they have transferred to a Florida state university.

State Licensure Passing Rate - the number and percentage of students passed for each appropriate vocational program licensure exam.

Vocational Placement Rates of Associate in Science and Certificate Program Completers and Leavers - number and percentage of students who completed and were placed into an occupation related to their instruction, and also the number and percentage of students who left and were placed into an occupation related to their instruction.

College Preparatory Enrollment, Retention and Success for Associate in Arts, Associate in Science, and Postsecondary Vocational Certificate Students - retention and success rates of first- time- in- college A.A. and A.S. degree seeking students and PSVC seeking students, who have completed all college preparatory requirements.

College Preparatory Success Rate - the number and percent of first- time- in- college students who failed some portions of their entrance exam, how many of those enrolled in the college preparatory classes, and the number and percent of those who passed the highest level college preparatory courses.

CLAS Performance - the passing number and percent of students who attempted the CLAS or had a CLAS alternative for each CLAS subtest, and for all subtests combined.

Source: Cohort population includes first-time-in-college (FTIC) students from the beginning of the tracking period who took an entry level test, achieved 18 credit hours (A.A. and A.S) or 9 credit hours (PSVC) by the end of the tracking period and were seeking A.A., A.S. and PSVC.

Number Graduated: Of the cohort, the number who graduated

Number Enrolled in Good Academic Standing: Of the cohort, excluding the Number Graduated, the number of students still enrolled at the institution during the following terms with a GPA at or above 2.0.

Number Enrolled Not in Good Academic Standing: Of the cohort, excluding the Number Graduated, the number of students still enrolled at the institution during the terms, with a GPA below 2.0

Number who Left in Good Academic Standing: Of the cohort, excluding the number Graduated, the number of students who were not enrolled at the institution during the terms, that had a GPA at or above 2.0

Retention Rate = (# Graduated + Enrolled in good Standing + #Enrolled Not in Good Standing) / Total Cohort

Success Rate = (# Graduated + Enrolled in Good Standing + #Left in Good Standing) / Total Cohort

ANALYSIS OF EACH MEASURE

1. Measure 1, Part 1 - Prior Year High School Graduates Enrolled the Following Year Enrollment Report

- Palm Beach State College enrolled 33.4% of the prior-year high school graduates in its service district. Although the percentage is somewhat lower than the enrollment average for the Florida College System, the five-year trend for Palm Beach State shows an increase over the last three years (Figure 1, page 9).

2. Measure 1, Part 2 - Enrollment, Retention, and Success Report for Associate in Arts, Associate in Science, and Postsecondary Vocational Certificate Students.

- **Associate in Arts students:** Palm Beach State College attained a 68.7% retention rate and a 90.9% success rate for associate in arts students in the current report. The five-year trends in retention and success show that the College consistently exceeds the Florida College System averages (Figures 2 – 3, pages 10, 11). Moreover, the College has improved its rates of retention and success over the last three years.
- **Total Associate in Science students:** Palm Beach State College achieved a 63.4% retention rate for associate in science students and a 88.1% success rate. The five-year trends consistently exceed the average rates of retention and success for the Florida College System. (Figures 4 – 5, pages 12, 13).
- **Total Postsecondary Vocational Certificate students:** Palm Beach State College achieved a 92.8% retention rate and a 90.7% success rate. Both of these rates represent an increase over the prior year and exceed the Florida College System average (Figures 6 – 7, pages 14, 15).

3. Measure 2 - Associate in Arts Degree Transfer Performance Report

- The average GPA obtained by Palm Beach State College Associate in Arts transfer students in the University System was 2.85; this average GPA is lower than the Florida College System average of 2.95. The percentage of College A.A. transfer students who achieved a GPA at or above 2.50 was 72.3%, a percentage that is also below the Florida College System average of 76.5% (Figure 8 - 9, pages 16, 17).

4. Measure 3 Part 1 - Licensure Passing Rate Report

- The data for this section of the report has not been distributed by the state of Florida since 2000 (Figure 10, page 18).

5. Measure 3 Part 2: Vocational Placement Rates of Associate in Science and Certificate Program Completers and Leavers

- Palm Beach State College completers achieved an 89.9% placement rate, while College leavers attained a 83.7% placement rate. The five-year trends shows continues to reflect variability due to accounting changes; thus, the trends should be interpreted cautiously. The College's placement rate for completers and leavers increased from the prior year; both rates are similar to or greater than the Florida College System averages (Figures 11 – 12, pages 19, 20).

6. Measure 4 Part 1 - College Preparatory Success Rate Report

- **FTIC Students Failed Any Entry-Level Test:** Among Palm Beach State College's First-Time-In-College students, 67.6% placed in college preparatory studies. This percentage is slightly lower than the prior year, but remains higher than the Florida College System average (Figure 13, page 21).
- **Percent Passed Highest level for College Preparatory Reading:** Palm Beach State College achieved a passing rate of 72.7%, a percent that is slightly lower than last year and remains somewhat below the Florida College System average (Figure 14, page 22).
- **Percent Passed Highest Level for College Preparatory Writing:** Palm Beach State College achieved a passing rate of 75.7%. Five-year trend data show a consistent increase in this measure over time, and recent rates are substantially higher than the Florida College System average (Figure 15, page 23).
- **Percent Passed Highest Level for College Preparatory Math:** Palm Beach State College achieved a passing rate of 60.7%. This measure shows a consistent pattern of improvement over the past five years and, for the last three years, the rate is substantially higher than the Florida College System average (Figure 16, page 24).

7. Measure 4 Part 2 - College Preparatory Enrollment, Retention and Success Report for Associate in Arts, Associate in Science, and Postsecondary Vocational Certificate Students

- **Total Associate in Arts students:** Palm Beach State College's retention rate (70.0%) and success rate (93.5%) have remained relatively stable over the past five years, and both rates exceed the Florida College System average (Figures 17 – 18, pages 25, 26).

- **Total Associate in Science students:** Palm Beach State College's retention (64.8%) and success rates (86.7%) have decreased from prior years, although both rates remain higher than the Florida College System average (Figures 19 – 20, pages 27, 28).
- **Total Postsecondary Vocational Certificate students:** Due to the small number of students in postsecondary vocational certificate programs included in the accountability report study, the retention and success rates of the College fluctuate substantially. In this year's report, the PBCC retention rate was 95.0% and the success rate was 100.0% (Figures 21 – 22, pages 29, 30).

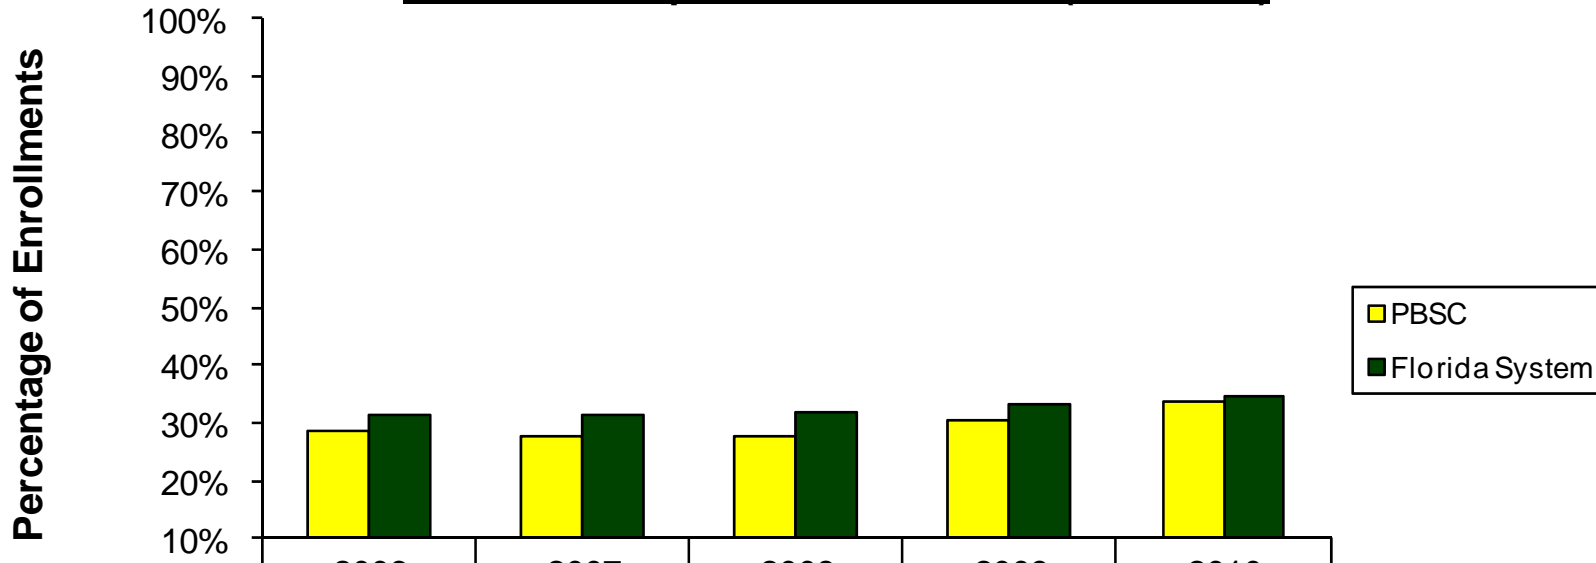

8. Measure 5 - CLAS Performance Report

- Results include students who attempted the CLAS or had a CLAS alternative. The performance of Palm Beach State College in passing each of the four subtests and all four subtests combined was similar to the Florida College System average. The passing rate for individual subtests ranged from 99.5% to 99.8% and all four tests combined was 98.1% (Figures 23 – 27, pages 31-35).

CONCLUSION

Palm Beach State College continues its excellent results on the accountability measures as established by the of Florida. Throughout these measures, students continue to achieve high levels of performance during the time they attend the College. This high level of performance carries through as students enter the university system as evidenced by their GPA once they attain junior status. In addition, high placement rates in career programs indicate that our students are able to enter their chosen profession once they complete a career program at Palm Beach State. A possible area of focus for improvement is in the A.S./A.A.S. programs where performance measures, although still acceptable, did show declines from previous years.
