

E. Aircraft Crash on Campus

Because of the location of airports in close proximity to our Campuses and the existence of the helipad on the Lake Worth Campus, the possibility of an aircraft crash on Campus must be considered.

Take the following actions if you are in a structure affected by an aircraft crash:

- Immediately take cover under tables, desks and other objects that will give protection from falling glass or debris.
- After the initial effect of the crash and/or fire has subsided, Call 911. Give your name, location and the nature of the Emergency.
- If necessary, or when directed to do so, activate the building alarm. You may have to use alternative methods of notifying building occupants to evacuate.
- Follow standard evacuation procedures and report to your designated Safe Assembly Area until an accurate headcount is taken.
- Depending on structural damage to facilities, Facilities Management may cut off utilities to the structure for safety purposes.
