

## C. Hurricane

Dangers from hurricanes include high winds, flooding and flying debris. Hurricanes may also spawn tornadoes. A hurricane warning is issued when hurricane conditions (winds of 74 miles per hour or greater or dangerously high water and rough seas) are expected within 24 hours or less. The hurricane season in south Florida lasts from June through November.

**Palm Beach State College currently has a Hurricane Plan in place and this will act as the primary document for preparedness, response and recovery for a Hurricane Emergency. If a hurricane threatens Florida, go to the College's website for instructions and information. The HURRICANE PLAN is located at:**

**[Hurricane Preparedness Plan 2010.doc](#)**

**SEE APPENDIX C**
