

Looking for a way to get College Credit for your Cert's???

If you've taken a class at the Florida State Fire College by a credentialed instructor, it's easy. Just have the FSFC send a certified copy of your transcript to the Palm Beach State College Fire Science Director and bring in your FSFC certificate to be copied, it will be taken care of at no charge. If you have certificates from a non accredited institution, Vocational Schools, South Tech, PBCFR, etc, you must use the Palm Beach State College "Prior Learning Portfolio" process.

If you've taken classes through a "regionally accredited" institution, all you need to do is have that institution send your transcript to the Fire Science Director, and it will go onto your Palm Beach State College transcript at no charge.
