Welcome to Palm Beach State College – Boca Raton Campus

Use the buttons on the left to assist you in using the Multimedia Classroom Equipment.

If you would like to schedule a one-on-one Multimedia Classroom Equipment Orientation please fill out the online: Orientation Request Form
1. **POWER THE DATA PROJECTOR ON**
   - Aim the remote control at the data projector and press the ON button in the top right corner.
   - Note: You may hear the projector’s fan before seeing an image onscreen. The projector’s lamp can take up to 60 seconds to achieve its full luminosity.

2. **SELECT THE SOURCE YOU WANT TO PROJECT**
   - Aim the remote control at the data projector and select ‘COMPUTER’ or ‘VIDEO’ input.

3. **ADJUST THE VOLUME**
   - If necessary, press the VOLUME +/- buttons on the remote control to adjust the audio volume to desired level.

4. **POWER THE DATA PROJECTOR OFF**
   - Press and hold the OFF button at the top left side of the remote control for approximately 3 seconds or until projector’s light turns off.
   - Note: The projector’s fan will continue to run after the projector is powered off to cool down the lamp. A cool-down period of several minutes may be necessary before projector can be powered on again.
1. POWER THE DATA PROJECTOR ON
   - Aim the remote control at the data projector and press the ON button in the top right corner.
   - Note: You may hear the projector’s fan before seeing an image onscreen. The projector’s lamp can take up to 60 seconds to achieve its full luminosity.

2. SELECT THE ‘VIDEO’ INPUT
   - To Play a DVD:
     - Press the Open/Close button on the front of the deck then place the DVD on the tray.
     - Press the Open/Close button again to close the DVD tray.
     - Use the DVD/VCR remote control play, stop, fast-forward, rewind, etc.
   - To Play a VHS Tape:
     - Insert the VHS tape into deck.
     - Use the DVD/VCR remote control play, stop, fast-forward, rewind, etc.

3. ADJUST THE VOLUME
   - If necessary, press the VOLUME +/- buttons on the remote control to adjust the audio volume to desired level.

*ALWAYS POWER OFF EQUIPMENT AFTER USE*
1. POWER THE DATA PROJECTOR ON
   - Aim the remote control at the data projector and press the ON button in the top right corner.
   - Note: You may hear the projector’s fan before seeing an image onscreen. The projector’s lamp can take up to 60 seconds to achieve its full luminosity.

2. SELECT THE ‘COMPUTER 1’ INPUT
   - You may also need to power ON the computer.

   LOG INTO THE COMPUTER USING YOUR PALM BEACH STATE COLLEGE USER NAME AND PASSWORD.
   - Note: If you are unable to log in or if you have other computer-related problems, please contact the IT Helpdesk at 561-868-3100.

3. ADJUST THE VOLUME
   - If necessary, press the VOLUME +/- buttons on the remote control to adjust the audio volume to desired level.
   - Note: If you don’t hear any audio or if the volume is not loud enough, please verify that the computer audio is not muted or turned down. To do this, click the speaker icon in the lower right corner of the computer screen. The volume control tab will appear onscreen and may be unmuted and/or adjusted.

*ALWAYS POWER OFF EQUIPMENT AFTER USE*
• Verify the computer is powered ON then log in with your Palm Beach State College user ID and Password.

• To use the LASER Pointer:
  o Press and hold down the LASER Pointer button on the Wireless Mouse.

• To advance slides in PowerPoint:
  o Open PowerPoint presentation and run SLIDE SHOW.
  o Press the RIGHT arrow to advance to the next slide.
  o Press the LEFT arrow to go back a slide.

The wireless mouse will look like one of these two models
1. POWER THE DATA PROJECTOR ON
   o Press the ON button at the top right corner of the remote control.
   o Note: You may hear the projector’s fan before seeing an image onscreen. The projector’s lamp can take up to 60 seconds to achieve its full luminosity.

2. SELECT THE ‘VIDEO’ INPUT

3. BE SURE DVD/VCR IS ON THE LINE 1 (L1) INPUT.
   o Note: If the DVD/VCR tuner does not switch automatically, you may use the DVD/VCR remote control inside the cabinet to switch to the L1 input. To do this, press the ‘INPUT’ button until you see L1 displayed.

4. POWER ON THE WIRELESS DOCUMENT CAMERA

5. POWER ON WIRELESS RECEIVER, THEN USE THE ‘SOURCE’ BUTTON AND ARROWS TO SELECT THE ‘CAM’ INPUT. PRESS “ENTER” BUTTON TO SELECT SOURCE.

At this point you may want to:
   o Adjust the arm if the object you are displaying is short/tall.
   o Auto-focus on the image being displayed.
   o Experiment with different image options available on the control panel at the base of the document camera.

• Examples of items that can be projected:
   o Textbooks, papers, objects, overhead transparencies (to display transparencies you will need to put a piece of white paper underneath or use the base lamp).

*ALWAYS POWER OFF EQUIPMENT AFTER USE*
Please see below for basic troubleshooting tips:

- If you cannot see computer or video image on the wall screen:
  - Verify that the remote control is on the proper INPUT for the device you are trying to use.

- Cannot turn data projector on or off:
  - If you see 2 red lights on the projector itself, it could be locked up or the lamp may need to be replaced. Please contact MTIS at 561-862-4800 for service.

- Wireless mouse is not advancing slides or laser pointer not visible:
  - Wireless Mouse remote could be out of sync or batteries may need to be replaced.
  - **NOTE: If you remove the batteries and try to replace them the remote may still not work unless its synced by MTIS. Please contact MTIS at 561-862-4800 for service.**

- No Audio
  - Verify that the data projector audio is not all the way down.
  - If using the computer, make sure the audio is not muted. The computer’s audio control icon will be at the bottom right corner of the monitor.
