## PILOBOLUS' Shadowland

Friday & Saturday, February 16 & 17, 2018 @ 8PM

Created by Pilobolus's dancers and directors in collaboration with lead writer for the popular animated series *SpongeBob SquarePants*, Steven Banks, *Shadowland* is a universal and intimately portrayed experience that is both intensely dramatic and comedic. The story is a surreal experience of a young girl's sensational world as she comes of age. As the first theatrical event of its kind to tour the globe, *Shadowland* incorporates multiple moving screens of different sizes and shapes to create an evening-length performance that merges projected images and front-of-screen choreography. Set to a rhythmic original score by David Poe, the popular American musician, producer, and film composer, the poetic work for *Shadowland* ranges from ballads to hard-driving rock numbers that lift the audience out of its seats. The songs illuminate the themes and visuals of this fascinating story and world.
