Become an American Welding Society (AWS) Certified Welder!

Palm Beach State College provides many AWS certifications.

**Sign up now to reserve your spot!**

Not yet ready for your AWS certification and want to increase your skills? Palm Beach State offers short welding courses to improve your current skills, or learn to weld.

Visit the website below to find more information and to register for classes.

For more information call 561-868-3885 or 561-868-3700

www.palmbeachstate.edu/CCE

YOU HAVE TWO OPTIONS!

**OPTION I**

**AWS Certification Prep and Test**

TIO 0130  
8 hrs.  
$576

This includes four hours of practice time with an instructor and four hours for AWS testing. Students will safely perform the identified welding techniques using the necessary tools, equipment and personal protective equipment. Demonstrate your required welding skills and knowledge per AWS requirements to get AWS certification. Numerous AWS certifications are available, including SMAW and GTAW processes. **Student must be a skilled welder before testing.**

**OPTION II**

**AWS Certification Test Only**

TIO 0134  
4 hrs.  
$441

This provides AWS Certification only. Includes four hours of testing ONLY! This is for skilled welders—come prepared to test. The certified welding inspector (CWI) will review safety procedures, make sure you understand what you will be required to perform, and set any other requirements for your specific test.

Call or check the website for dates and times. Testing also may be scheduled to meet your needs.

Students must contact Sandi Barrett, Program Director at 561-868-3885 with certification preference before registering for class.
