FOR IMMEDIATE RELEASE

Lecture focuses on Florence's mathematical sites

(March 22, 2007 – Palm Beach Gardens) A tour of Florence, Italy is expected to cover the many artistic sites...but a “math history” tour? Guests who attend a public lecture, **“Florence, Math and the Renaissance: A Math History Tour,”** at Palm Beach Community College in Palm Beach Gardens April 3 will take a virtual tour that’s different from most.

Math Professor **Anne Marie Mosher** from St. Louis Community College will speak in the Meldon Lecture Hall, BB Building, at 12:30 and 7 p.m. that day. She’ll share the math, science and problem solving early Italians employed and interesting sites in Florence related to math and science. The free lectures, which are open to the public, are part of the college’s Math Awareness Week.

To find out more, contact Gail Burkett, math professor at PBCC, at 561-207-5062.
