TIO0512	ASE Certification Test Prep in Spanish	Change clock hours from 40 to 64.

Minutes Corrections

9/25/08-IV. E. 2. One revised course that was overlooked as [part of this action, was ATF 2340 Flight-Helicopter. Since ATF 2605 Intermediate Flight Simulator and ATF 2610 Advanced Flight Simulator were absorbed into ATF 1602, they should have been removed as pre and coreqs of ATF 2340. Students have had registration problems for Spring so these corrections have been made to ATF 2340.

10/22/09-FYI-TABE/VPI Project and Action Plan-The addition of VPI0100, VPI0200 and VPI0300 as corequisites for Trade and Industrial PSAV program courses effective January 2010 has been reversed for now. It has been determined that the programs are not ready to monitor this addition this Spring term to their course programs to promote students to take the required TABE exam and remediate in order to complete these programs as prescribed by state statute. This will be revisited at a later date.

Justification: In a review of programs offered at PBCC, several programs were discovered not to meet SACS requirements for AS degrees. Some programs also had confusing listings for students that needed to be clarified. Since it did not have an AAS option, the Landscape and Horticulture Management AS degree needed to remove the option of a non-General Education Math (MAT 1033) as a General Education choice for this AS program. The Crime Scene AS program also needed to remove MAT 1033 as the selection for a General Education selection for this AS program and also the clarify that a Humanities General Education selection was required and not an option with a Natural Science or Social Science selection. The latter action allows this program to meet SACS General

Palm Beach Community College
 Curriculum Committee Minutes
 Electronic Vote November 16th through November 23, 2009

Education requirements minimum for an AS degree of 15 credits of College Composition, General Education Mat or Science, Social Science, Speech and Humanities. All of these are now included in the Crime Scene Technology AS degree as well as HSC 2100.

Discussion: Janette Campbell brought up issue with limiting the General Education Mathematics to MAC 1105. When researched, it was discovered that this was an error and should read "Any course from Mathematics-Area III." This correction was sent out to the committee and they were requested to revote if this change affected their original vote. No one changed their vote.

+For those students planning to go onto the BSN **If BSC 2085/2085L and BSC 2086/2086L are completed prior to entering the Nursing Program, the BSC 2086 and BSC 2086L must be completed within the last ten (10) years.	+For those students planning to go onto the BSN **If BSC 2085/2085L and BSC 2086/2086L are completed prior to entering the Nursing Program, the BSC 2086 and BSC 2086L must be completed within the last ten (10) years.
---	---

Justification: The course changes are corrections to the Area of Study Page and catalog listing that had been overlooked in the past. The program change to the Nursing AS degree is also to make the program conform with SACS criteria for AS degrees. For this AS program a Humanities General Education selection was required that was missing when this program was converted from an AAS to an AS. Students have been advised to take a humanities course to meet graduation requirements but it was not listed in the program.

Discussion: None.

Hello, all. The selection of MAC 1105 for the General Education requirements for the Crime Scene AS program was my error in interpreting the form Dr. Pedersen and Paul Friedman sent to me. The selection should read "Any course from Area III-Mathematics."

For those who have not voted yet, please consider this correction when you vote. Those who have already voted, send me a changed vote if that is what you want. If you want to leave your vote the same, you do not need to contact me.

Sorry for the confusion.

Kathy Gamble

Oops, sorry about that---I did mean Crime Scene.

I agree with Janette although I think she is talking about Crime Scene. Should this just be any course in Area III for Mathematics.

Why was the requirement in Fire Science changed to specifically College Algebra? I would think they could also take any of the introductory mathematics courses - ie, MGF 1106 or 1107, STA 2023, MAC 1105. When MAC 1105 was first introduced in the state numbering system, it was intended as an introductory course for students heading to calculus. Along the way it has become a "filter" for many programs who do not need it. Therefore I recommend that the requirement for Fire Science be changed in order to give the students more choice.

I vote in favor of the changes in the nursing AS program.

Good morning, Kathy.

Yes, I would support the change to "Any course from Area III-Mathematics." That does make more sense.
