	<b>Total Program Hours 40</b>

DCF is currently working on changing the Food Hygiene rule and because this rule is open they can't resolve changes made to the Developmentally Appropriate Practices (DAPs).

3/29/12 IV. B. 2. ECO 2013 Honors Principles of Macroeconomics (3 lecture contact hours, prerequisite: admission into the Honors College, ~~ENC 1101~~) (ENC 1101 was not a prerequisite to this course and was listed in error.)

**Course Dictionary Housekeeping**

**AOM2269C** Crystallization – 1 (AS) removed listed prerequisite of AOM2268C. This prerequisite course was inactivated (end termed 2010-3) due to the Five Year rule.

**CRW2001** Creative Writing (AA) – This course had an “OR” condition Prerequisite (ENC1101 or ENC1121); however, since 2000-1, ENC1101’s minimum grade has been listed as a “D” and ENC1121’s minimum grade has been listed as a “C” The English cluster voted to revise the ENC 1101 prerequisite grade to C or higher.

**Information Management BAS** The Bachelor Program Cluster approved the addition of the following new acceptable lower division courses to be added to the degree audit:

Courses to be added to T801 and T801A(Database Administration):

- COP2805 Advanced Java Programming
- COP2831 Advanced We Page Applications
- COP2800 Programming in Java
- COP2835 Advanced Visual Basic.NET
- COP2840 Server-Side Programming

Courses to be added to T803 and T803A(Security and Network Assurance (IT Forensics):

- CNT2700 TCP/IP and Network Administration
- CNT2404 Network Attacks and Introduction to TCP/IP Security
- CTS2320 Wide Area Networks
- CTS2334 Local Area Networks
- CTS1650 Cisco 1 Networking Essentials
- CTS2301 Unix Installation and Administration using Linux
- CTS2651 Cisco Router Technology
- CTS2652 Cisco 3 Advanced Router Technology

**III. Old Business**

**Discussion:**

**Data sources consulted: Curriculum Support Documents**

**Action:**

**IV. New Business**

**Credits/Clock Hours**

**A. AA Courses**

**1. Architecture**

New Courses

**Effective August 2012**

ARC 2XXXC (2180) Intro to Digital Architecture (1 lecture/4 lab contact hours, No pre/coreqs, special fees) 3

**Justification:** This course will be an introductory course in digital architecture. The course will be offered to keep up with the tremendous growth in digital design in the architecture field. In speaking with professionals in the industry, BIM, Autocad, 3D modeling, and graphics software are being used in everyday practice in an architectural office. The local architects have expressed that knowing the latest software programs is the biggest criteria for hiring an intern or entry level designer. Meetings with several public Florida state universities (FIU, FAU & USF) to discuss transfer requirements to their upper division architecture programs have shown that they require a computer modeling and graphics course to better prepare students for upper division work. FIU's Architecture program requires this course before Palm Beach State College Architecture students can be accepted into their architecture program. Because of this, some Palm Beach State students are traveling to Miami Dade College to fulfill this requirement over the summer.

**Discussion:**

**Data sources consulted: Curriculum Support Documents**

**Action:**

**2. Music**

Revised Courses

**Effective August 2012**

MUN 1120 R Concert Band (Increase number of time to repeat from nine to sixteen)	1
MUN 1710 D Tuesday Nite Jazz Band (Increase number of time to repeat from nine to sixteen)	1
MUN 1710 E Jazz Guitar Ensemble (Change contact hours from 2 lab hours to 3 lab hours)	1
MUN 2710 D Tuesday Nite Jazz Band (Increase number of time to repeat from nine to sixteen)	1

**Justification: MUN 1120 R, MUN 1710 D, MUN 2710 D** This class is frequently taken for credit by local area music teachers. They use the college credit to count towards their recertification. They make an important contribution to these ensembles and aid our other "traditional" students with their leadership and other skills. However, due to the current limit on the number of repeats (9), many are reaching the point where there will no longer be able to enroll in these classes. Raising the limit will allow them to continue in these ensembles as valuable leaders and mentors. The two classes affected by this are Tues Nite Jazz Band and Concert Band. **MUN 1710E** has previously been schedule for only one class meeting a week and, as such, was limited to 2 lab hours a weeks. In the future, this class will be scheduled for two class meetings a week. The change to 3 lab hours puts this in line with all other music ensembles that meet twice a week - MUN 1310, MUN 1710A, MUN 1710C, & MUN 1720 as well as MUT 2641L (Jazz Improvisation).

**Discussion:**

**Data sources consulted: Curriculum Support Documents**

**Action:**

**B. English/ Prep English Courses**

Revised Courses

**Effective August 2012**

EAP 1620	Advanced Reading ( Revise prerequisite placement scores to include PERT scores)	3
EAP 1684	Advanced English Prep (Revise prerequisite placement scores to include PERT scores and revise course learning outcomes and rubric)	3
ENC 0025	Developmental Writing 2 (Revise course learning outcomes and rubric)	3
ENC 1101	College Composition 1 (Revise course learning outcomes and rubric)	3

Palm Beach State College  
Curriculum Committee Agenda (*Revised 4/23/12*)  
April 26, 2012

**Justification:** The Expert Writing Panel of the combined English, EAP and Developmental Writing Clusters developed course learning outcomes for EAP 1684, ENC 0025 and ENC 1101 that would have a common rubric applied to them. The rubric has two parts, a Summary Rubric, which is what is expected that professors to apply to score student writing, and an Explanation Rubric, which is a complete list of expectations for skill levels in each of the four areas: Critical Thinking, Clarity and Organization, Language, and Support. Each successive course would be scored at a higher level based on the common rubric. Also, the EAP Cluster approved including PERT Scores in the required placement scores for EAP 1620 and EAP 1684 in October 2011 and this is being done to complete the conversion of all EAP placement scores to include PERT.

SYG 2000	Introduction to Sociology	3

Total Required Courses 55

**TOTAL PROGRAM CREDITS 73**

Justification: **New HUS courses, CCC and AS degree** Based on the number of current job openings (EMSI), and research of the 5-yr period projected Occupational Report , the overall need for substance abuse and mental health service workers will increase between 1.5% to 2.5% per annum until the year 2016. This program will prepare students for employment as clinical/addictions specialists, human services/chemical dependency/social services practitioners and substance abuse counselors. **HUS 1850/HUS 1850L** Students enrolled in the Youth Development credit programs CCC 6387 or AS 2374 are required to take HUS 1203 Principles of Group Facilitation instead of HUS 1200 Principles of Group Dynamics, therefore, HUS 1203 needs to be added as a prerequisite for HUS 1850 and HUS 1850L Field Work in Human Services 1 and Lab.

Justification: Terrorism, both internationally and domestically, is an ongoing problem for law enforcement at all levels. The actions of the various terrorist groups have caused legislatures to create new laws (Patriot Act, for example), have lead to the changes of tactics used by law enforcement agencies, and have also had a direct effect on the Fourth Amendment to the U.S. Constitution. Additionally, through the creation of the Department of Homeland Security (the largest federal department in the U.S.).

Palm Beach State College  
Curriculum Committee Agenda (*Revised 4/23/12*)  
April 26, 2012

**Justification:** **EST2520C** is part of the specialized sequence of courses in Instrumentation & Control within Electrical Power Technology (EPT) program, and as such it needs to be added to the EPT program. The addition will allow more time than currently available in the curriculum to cover Instrumentation and Controls, emphasizing the teaching of data acquisition and measurement techniques and provide the students with better understanding of that area. It would also address the need of industry to have students trained in the installation and theory of sensors, which this change would enable. To accommodate this course addition, two courses **EET 1015C and EET 10125C** will be reduced to 3 credits from 4 as per the recommendation of the Business Partnership Council (BPC) and the Trade and Industry Cluster. **EST 2530C** This change is needed because the Business Partnership Council concluded that the third specialized course in Instrumentation & Control sequence (EST2520C) needs to be added. Therefore, this course description is being changed to accommodate that change. **ETI 1000-** This change is needed because the students need to learn Environmental Health and Safety and become OSHA aware before they can understand the Industrial Tools and Equipment and all of the safety concerns that come with it.

**Discussion:**

**Data sources consulted: Curriculum Support Documents**

**Action:**

**F. Motion to Dismiss**

**Discussion:**

**Data sources consulted: Curriculum Support Documents**

**Action:**

The Curriculum agendas and documentation are at <http://intranet.pbcc.edu/AcadServ/CurriculumMaterials.asp> and Curriculum Minutes <http://www.palmbeachstate.edu/x7024.xml> are posted online.

The Curriculum Committee meetings will be held in ETA 101 in Lake Worth and will be available for members and presenters in the reserved conference rooms at the other college locations. (Belle Glade CRA 125, Boca Raton HT 121 (for April only), Lake Worth ETA 101, and Palm Beach Gardens AD 207)
