Curriculum Procedure Updates: New programs requesting financial aid eligibility will need to provide a letter from SACS verifying the program is approved to be offered at Palm Beach State to initiate the FA process of approval. This request for this letter will be generated from the Vice President of Academic Affairs Office after the program is approved through the curriculum process. Those interested in creating new programs should keep this added step in mind when creating a timeline for offering a new program at the College since this letter may take several months to secure.
