

PALM BEACH STATE COLLEGE

Prep Math Cluster Agenda
March 22, 2012
2:00 – 2:30 p.m.
Lake Worth Campus

- ITEM 1. **MAT 0028 Chapter 2 worksheets.**
Eileen created worksheets for sections 2.4 – 2.7. The worksheet explains how the sections are similar and provides examples for the homework and class notes. The sections can be covered in two days. Eileen and Mauvette have had good results using the worksheets this semester.
- ITEM 2. **Changes to the MAT 0028 Textbook.**
The cluster agreed that the special insert for section 2.7 was confusing because there are two 2.7 sections in the textbook. The cluster was all in favor to undo the special insert and keep the standard edition.
- ITEM 3. **Course Redesign.**
The chancellor is going to present Course Redesign to the State Board of Education. Course Redesign is similar to MODS. Student would work on computer based instruction (My Math Lab) on an individual basis and faculty would be the facilitators. Benefits: Computer based instruction means more students could enroll into class so it would be cheaper for the college because fewer professors would be required to teach those classes. We will keep abreast of this news.
- ITEM 4. **Cluster chair and scribe.**
Gail will remain as cluster chair and Kenny will remain as cluster scribe.

Attendance:

Judy Garcia	Eileen Doran	Ralston Brown	Kenny Chan
Mauvette Joseph	Paul Estriplet	Reginald Butler	Gail Burkett
Alex Opritsa	Andy Yonis		

Submitted by:

Kenny Chan
Scribe
