  - A drug screening test
  - FDLE Criminal Background Check
The ARRT has a policy on eligibility for board certification which states you must have full civil rights.

If there is any concern that you may not be board eligible it is suggested that you communicate directly with the ARRT concerning a pre-approval.

Once full civil rights have been restored, you should be eligible to sit for the national board.
Program orientation in November
Classes begin in January
First year students
  - on campus M and W
  - In the clinical centers T, Th and Fri
Second year students
  - on campus T and Th
  - Clinics M, W, and F
You must be able to supply your own transportation to the clinical centers
RADIATION SAFETY

- **Time**
  - Minimize the time of exposure
- **Distance**
  - Stand away from the source
- **Shielding**
  - Lead aprons, walls and windows
- **Personnel Monitoring**- film badges
Due to the nature of ionizing radiation this program is concerned for the health, safety and protection of expectant mothers.

A pregnancy policy is contained in the program handbook.

Its function is to describe measures which can be taken to protect an unborn child from potential risk.
If you are not accepted
Reapply next year
In the mean time
  take more of your general education courses
  Work and save money!!!!!!!

GOOD LUCK WITH THE PROCESS
