Course Description:

This 40-Hour course focuses on the use of Radar and Laser Speed measurement devices. Students will be certified in the use of both Radar and Laser.

Topics will include: basic time distance calculations: operating Radar and Laser Equipment, hands-on applications and Legal issues. The student will understand the historical development, legal cases, as well as theory.

It is STRONGLY RECOMMENDED for the attending officer to Supply their Departments Issue Radar and Laser device. This will ensure the training offered is applicable to their Departments issued units.
