

# Biotechnology Program Student Internship Presentation

Tuesday  
Nov 29, 2016  
3:00pm SC214

**Palm Beach Gardens Campus**  
3160 PGA Boulevard

## **About Sancilio & Company:**

Sancilio & Co, located in Riviera Beach, is a pharmaceutical company that is "Developing Good Science into Great Medicine." The use of Advanced Lipid Technology as a drug delivery platform makes products more effective and bioavailable to the body. Active research and clinical trials are under way for various diseases.

*Join us as Biotechnology student Paul Gaumer presents his internship work from **Sancilio & Co.**, under the direction of Jose Acevedo and Isabel Hanze.*

## **Learn about Procedures in a Pharmaceutical Quality Control Lab:**

- *Tests conducted before a drug is released to market.*
- *Reagents and laboratory equipment used in the process of drug analysis.*
- *Standard Operating Procedures.*
- *cGMP Practices.*
- *Omega 3 fats health benefits.*
