In addition to fulfilling core and elective requirements (27 credits), students in the non-thesis option are required to take CCJ 6485 Applying Criminal Justice Theory, Policy, and Research (3 credits) and one additional elective (3 credits). CCJ 6485 guides students through a project that comprehensively applies the theoretical concepts learned throughout the program. To obtain a concentration a CCJ student will take at least three courses related to the concentration area and then
select a topic related to that concentration for their exit option. The following are the three concentrations available and the courses that can satisfy each:

6 Students may also take up to one directed independent study (CCJ 6905) to satisfy this requirement, approved by the graduate coordinator

Academic Standing

Continuation in the program requires satisfactory progress toward degree completion. Evidence of such progress includes maintenance of an overall 3.0 cumulative GPA. Additionally, for each course, no grade lower than "C" is acceptable to fulfill program requirements. (Thus, a "C-") would not be acceptable). Students who do not maintain the required 3.0 cumulative GPA are placed on academic probation during the semester immediately following the one in which their cumulative GPA dropped below 3.0. Failure to regain a 3.0 cumulative GPA within two successive semesters thereafter results in dismissal from the program. Students may also be dismissed at any time that they are not making satisfactory progress toward completion of the degree, or for serious violations of academic integrity.

Plan of Study (POS)

The College for Design and Social Inquiry requires all graduate students in the college to have an approved Plan of Study (POS) on file by the end of the second semester in the graduate program. This deadline is different than the Graduate College's recommendation of submission by mid-program, but no later than the semester before graduation. Individual academic colleges reserve the right to enforce stricter deadlines for this university-wide
graduate student requirement.

Degree Requirements
1. All students are required to complete the University Core Curriculum General Education Requirements to receive a degree from FIU. Proof of an Associate of Arts (AA) degree from a Florida college automatically satisfies this requirement.

2. Students entering FIU without an Associate of Arts degree from a Florida college must complete the "University Core Curriculum" requirements. (See the FIU Catalog website for details on the Core Requirements).

3. Foreign Language - Students must show mastery at, or complete a second semester sequence (at the college level) foreign language course or one more advanced with a minimum grade of "C". Credits earned through AP, IB, CLEP and other testing methods for earning accelerated credit satisfy this requirement. Discuss options for satisfying this requirement with your Academic Advisor.

4. All students entering any University within the Florida State University System with fewer than 60 credit hours are required to earn at least nine (9) credit hours prior to graduation by attending one or more summer terms at a university within the system.
