Thomas Atkins
FirstData
456 Sycamore Drive
West Palm Beach, FL 33409

Dear Mr. Atkins,

I am applying for the web developer position which was advertised on Palm Beach State College's jobs database this week. I believe this opportunity matches very well with my education, experience, and career interests. My background and career goals seem to match your job requirements well, and I am confident that I can perform the job effectively. Furthermore, I am genuinely interested in the position and in working for FirstData. Your company has an excellent reputation and comes highly recommended to me.

Your position requires skills in various types of programming and software used in web development. My academic program in computer studies emphasized C++, Visual Basic, Assembly Language, Java, and SQL. In addition, I have extensive experience in using several software packages in web development, including Adobe Illustrator, Photoshop, After Effects, and Dreamweaver. My experience as a department computer consultant gave me exposure to PC (Windows 2016) platforms as well as Novell and NT LANs. Additionally, I worked as a summer intern in computing operations for a large city newspaper where I gained knowledge of enterprise systems and e-commerce operations.

My enclosed resume provides more details on my qualifications. I would like to request a personal interview to discuss further my qualifications and to learn more about this opportunity. I will call you next week to see if a meeting can be arranged. Should you need to reach me, please feel free to contact me at 561/683-4388 or Lopezjf@palmbeachstate.edu

Thank you for your time and consideration. I look forward to talking with you.

Sincerely,

Johann F. Lopez
