Academic dishonesty includes but is not necessarily limited to:  
1. Unauthorized assistance, communication to another through written, visual, technological, or oral means. The presentation of material, which has not been studied/learned, but obtained through someone else’s efforts and used as part of an examination, course assignment or project constitutes cheating.  
2. When another’s work is deliberately used or appropriated without any indication of the source, thereby attempting to convey the impression that such work is the student’s own. Any student failing to properly credit ideas or material taken from another is plagiarizing.  
3. Presenting work done in one course to fulfill requirements in another course against the stated policy of an instructor.  
4. Having knowledge of another student’s violation of this policy also constitutes a violation.  
5. Removal of test material from the classroom.
6. Talking during an exam is forbidden.
7. Any student who knowingly helps or is present when another student violates academic behavior standards is also in violation of this policy.
8. Unauthorized technology, including cell phones are prohibited in the Testing Lab. Possession of a cell phone constitutes cheating, so any student not in compliance with this rule will be awarded a failing grade of zero.

Initial/General Academic Dishonesty Procedures
1. Students accused of an academic honesty infraction will be subject to the following procedure:
   a. The instructor has the obligation to make sure that there is clear evidence of academic dishonesty before any sanction is imposed against any student. If there is suspicion of wrongdoing without corroborating evidence, the instructor should discuss the matter with the student and issue a verbal warning where such is warranted.
   b. Academic departments have established policies on academic dishonesty. Students should contact their instructor, department chair or dean of student services if there are questions about this policy beyond what is established within this Student Handbook.
   c. A student shall not be permitted to avoid a failing grade because of academic dishonesty by withdrawing from the course.

Health Science Appeal Process
Health Science students are subject to the following procedure whenever an appeal is warranted (except for issues involving tuition/refunds). This entire process must be completed in no more than fifteen (15) business days. Depending on appeal issue, the student may or may not be allowed to attend class/clinical during appeal process. In addition, absences incurred during the appeal process may or may not be excused by the manager/director or the program/designee.

Receipt of Gifts
Students are not permitted to accept gifts, including monetary gifts, from patients or families. Non-adherence to this policy may result in consequences such as a referral to Academic Standards for unprofessional behavior.
