

NOTICE TO REJECT ALL BIDS

October 7, 2015

ITN 14/15-05

Voice over Internet Protocol (VoIP) Unified Messaging System

An Invitation to Negotiate (ITN) was released April 7, 2015 for a College-wide Voice over Internet Protocol (VoIP) Unified Messaging system. Two companies responded and negotiations were initiated with one of the respondents.

Based on the limited number of respondents, both of whom presented the same systems solution, and the failure of the parties to record the negotiations, Palm Beach State College will exercise its options of rejecting all proposals.

In an attempt to attract more proposals and alternative solutions, the College will re-solicit for these services/equipment within the next twelve months. Based on the College's actions and intent, proposals which have been submitted are exempt from inspection as a public record for the next twelve months
