

#	Question	Answer
1	Does the Apple computers have hard drives in them? I understand that we're required to wipe them - I simply need confirmation that they do have HDDs in them and are complete systems.	These systems are All In One systems and do have hard drives. The specifications can be obtained by researching their serial numbers from the internet.
2	Does any of the new toners/ink have permanent marker writing or labels (shipping, names, room #, etc) affixed on the boxes? Are they all genuine and sealed/unopened boxes?	Only a few of the boxes have labels or writing on them. Yes, they are genuine and sealed/unopened.
3	Are you able to take some photos of the miller welders and send them to me so I have an overall idea of their condition?	Images are available online at http://www.palmbeachstate.edu/purchasing/documents/Millerwelderimages.pdf
4	Is this a take all or can we bid on individual lot's?	Each lot must be purchased completely but you can pick and choose which lots to bid on.
5	Is the equipment palletized and wrapped?	All lots are palletized and wrapped unless too large to fit on a pallet.
6	Is there a loading dock, pallet jack or forklift?	We have a loading dock, pallet jack and forklift but hold no liability for loading or damage.
